

## EasiSolv 51 Stencil Remover

### ***Product Description:***

EasiSolv™ 51 Stencil Remover is a liquid, ready to use stencil remover/degreaser. This product was developed for use where premixing with water is not practical. EasiSolv 51 quickly and effectively dissolves all direct emulsions, direct/indirect stencils as well as capillary films.

### ***Physical & Chemical Data:***

<b><i>Appearance &amp; Odor:</i></b>	Clear liquid with mild odor.
<b><i>Specific Gravity:</i></b>	1.01 @ 20 °C / 68 °F
<b><i>Vapor Pressure:</i></b>	Not applicable.
<b><i>Vapor Density:</i></b>	Not applicable.
<b><i>Boiling Point:</i></b>	100 °C / 212 °F
<b><i>pH:</i></b>	2 - 3
<b><i>VOC:</i></b>	None
<b><i>Flash Point:</i></b>	None

### ***Special features:***

- EasiSolv 51 is premixed and ready to use...no mixing is necessary.
- EasiSolv 51 is packed with additives, enabling the product to penetrate the toughest, water resistant and work hardened emulsions and films.
- EasiSolv 51 degreases as it dissolves stencils, eliminating the additional step and expense of degreasing chemicals.

### ***Application:***

- Apply EasiSolv 51 by brush, wipe, scrub pad or spray to both sides of emulsion/film, after ink has been removed.
- High pressure rinse both sides of the screen.
- Flood rinse entire screen with low pressure rinse from the top to remove any debris, splash back and chemical residue.
- If stubborn stains remain, apply an Easiway Systems approved stain remover and high pressure rinse.

The industry leader in the development of innovative, high performance, environmentally conscious products and systems for the screen printing and graphic arts industry.
